The Evolution of Korean Skin Boosters

1.1 Revergen® NAD+ Skin Booster

ACTIVE INGREDIENTS

- NAD+ - boosts ATP, supports DNA repair, activates sirtuins
- Growth Factor Peptides (EGF, FGF, IGF) - regeneration & elasticity
- Collagen-supporting actives - structural reinforcement
- Antioxidant complex - protection against oxidative stress
- Hydration system - long-lasting moisture retention

Lyophilized NAD+ vial (100 mg) x 5 vials with the HA activator solution (4 ml) x 5 vials

Revergen® NAD+ Skin Booster

DESCRIPTION

Revergen® is a next-generation NAD+ skin booster designed to restore the skin's natural cellular rhythm. Powered by NAD+, an essential coenzyme involved in energy production, DNA repair, and anti-aging pathways, it enhances regeneration, improves firmness, and boosts overall radiance. Clinical studies show visible improvements in wrinkles, elasticity, dermal density, pores, pigmentation, and skin brightness.

FOR PROFESSIONAL USE

Activate reverse-aging enzymes

Achieve cellular renewal and balance

Boost collagen

Improve firmness, elasticity and skin texture

Cellular structure support

Inhibit MMP-1 to slow wrinkle formation

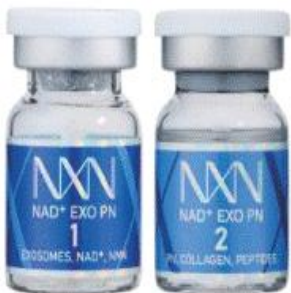

Preserve youthfulness

Prevent skin from sagging, fine line, and loss of resilience.

The Evolution of Korean Skin Boosters

1.2 NAD EXO PN / Red EXO COLLA Premium Regeneration & Longevity

No 1. Exosome powder: 100 mg × 5 vials

No 2. PDRN + peptides: 6 ml × 5 vials

NAD EXO PN

No 1. Exosome, Freez-Dried Ampoule: 100 mg × 5 vials

No 2. PDRN + Collagen + Peptides: 6 ml × 5 vials

RED EXO COLLA

ACTIVE INGREDIENTS

- NAD⁺ + NMN
 - 3 Plant Exosome (Ginseng, Cica, Camellia)
 - PN (Polynucleotides / PDRN)
 - Micro-PDRN
 - Collagen / Peptides / Vitamins
 - Skin Barrier Support
- Also includes Arginine, Adenosine, Glutathione, Tranexamic Acid, Arbutin and other antioxidant and brightening actives.

DESCRIPTION

A high-performance regenerative complex combining exosomes, NAD⁺ precursors, and polynucleotides (PN) to restore cellular vitality, improve tissue repair, and enhance skin longevity. Ideal for advanced anti-aging protocols and post-procedure recovery.

FOR PROFESSIONAL USE

ACTIVE INGREDIENTS

- Exosome (Panax Ginseng, Centella Asiatica, Camellia Japonica, Carrot)
- PDRN
- Collagen (Atelocollagen + Hydrolyzed Collagen)
- Peptides
- Brightening Agents (Glutathione, Arbutin, Tranexamic Acid, Vitamin C)
- Barrier Repair Actives (Adenosine, Arginine)
- Antioxidants (Vitamins B2, B3, B12)
- Also includes Palmitoyl Pentapeptide-4, Palmitoyl Tetrapeptide-7, Acetyl Hexapeptide-8, Biotinoyl Tripeptide-1, Galloyl Pentapeptide-74, and Nonapeptide-1.

DESCRIPTION

Skin booster formulated to promote regeneration, elasticity, and skin tone correction. It combines four plant-derived exosome vesicles with PDRN, collagen, and 10+ advanced peptides to stimulate dermal cell activity, repair the skin barrier, and visibly reduce signs of aging. The synergy of plant callus vesicles and bioactive ingredients supports overall skin recovery while improving hydration, resilience, and radiance.

FOR PROFESSIONAL USE

The Evolution of Korean Skin Boosters

1.3 Riola EXOTRIPLE / Plaxom Premium Regeneration & Longevity

**No 1. Exosome
powder : 100mg x 4
vials**
**No 2.
PDRN+Collagen+Pepti
des : 6ml x 4 vials**

Riola EXOTRIPLE

ACTIVE INGREDIENTS

Exosomes:
High-purity plant exosomes (1.3 billion particles/ml)
Regeneration & Repair:
PDRN 150,000 ppm (wild Alaskan salmon)
Atelocollagen
Collagen enzymes (3 natural enzymes)
Peptides (7 amino-acid peptides)

DESCRIPTION

Riola EXOTRIPLE is a high-purity exosome skin booster combining plant exosomes, PDRN, collagen, and peptides for intensive regeneration and hydration. It contains 1.3 billion exosome particles per ml, delivering strong cellular repair, improved elasticity, and visible rejuvenation. Atelocollagen and seven amino-acid peptides reinforce the skin barrier, reduce wrinkles, and restore firmness.

FOR PROFESSIONAL USE

**PLLA+CaHA+3
Exosomes 200 mg x 3
vials**
**PDRN + Collagen +
Peptides Ampoule 6 ml
x 3 vials**

Plaxom

ACTIVE INGREDIENTS

PLLA (Poly-L-Lactic Acid) CaHA (Calcium Hydroxyapatite) 3 Plant Exosomes (14 billion particles/ml) -Red Ginseng (11B), CICA (1.1B), Camellia (1B) micro-PDRN (20,000 ppm) Collagen & Peptides (10 peptides) - EGF, FGF, IGF, Acetyl Hexapeptide-8, Palmitoyl peptides, Nonapeptide-1, Biotinoyl Tripeptide-1, Palmitoyl Tripeptide-8 Sodium Hyaluronate

DESCRIPTION

PLAXOM is a 5th-generation exosome skin booster combining PLLA, CaHA, and plant-derived exosomes for both immediate and long-term rejuvenation. It delivers instant volume, collagen stimulation, improved elasticity, and deep regeneration. Ideal for patients with volume loss, sagging, and advanced aging signs.

FOR PROFESSIONAL USE

PLAXOM is designed for **full-face rejuvenation**, especially for patients with **flaccidity, volume loss, or advanced aging signs**.

The Evolution of Korean Skin Boosters

1.4 Selastin TOX GF11 Premium Regeneration & Longevity

5ml x 5 vials
Antiwrinkle &
Glutathione whitening

SELASTIN TOX GF11

ACTIVE INGREDIENTS

Syn-AKE (Dipeptide Diaminobutyryl Benzylamide Diacetate) Acetyl Hexapeptide-8 (Argireline-type peptide) Galloyl Pentapeptide-74 (Seaside) EGF (Epidermal Growth Factor). FGF (Fibroblast Growth Factor) IGF (Insulin-like Growth Factor) Glutathione, Vitamin C, Arbutin, Vitamin B2 (Riboflavin) Vitamin B3 (Niacinamide) Vitamin B12, Adenosine, Hyaluronic Acids, Amino acids, Peptide complexes

DESCRIPTION

Anti-Wrinkle • Botox-Like • Whitening
Formula: Syn-Ake Peptide + Exosomes + Growth Factors + Whitening Complex
SELASTIN TOX GF11 is an advanced **anti-wrinkle and whitening skin booster** designed to improve skin elasticity, reduce expression lines, brighten pigmentation, and strengthen the skin barrier. It combines **Botox-like peptides, 11 growth factors, whitening agents, and antioxidant vitamins** to deliver both immediate smoothing and long-term skin regeneration. Reduces expression lines (forehead, crow's feet, frown lines) Brightens and evens skin tone. Reduces dark spots and pigmentation. Improves elasticity and firmness, Strong antioxidant protection, Suitable for all skin types, including sensitive.

SKIN TYPE
- Dry and mature skin.

4.2 SKIN THERAPY

PEELING

50ml

Salicylic Removing

DESCRIPTION

Salicylic Removing combines the benefits of Salicylic Acid and Azelaic Acid to help improve skin texture and even out skin tone, resulting in a luminous complexion.

ROUTINE

- Apply weekly with gauze or cotton wool all over the face, neck and neckline. Focus on applying to the most congested areas, such as the nose or chin. Leave on for about 5 minutes; no need to remove.

FOR PROFESSIONAL USE

ACTIVE INGREDIENTS

Salicylic Acid, Azelaic Acid, Urea, Allantoin

REF.
0048

SKIN TYPE

- Ideal for oily skin.

200ml

Neutralizing Spray

DESCRIPTION

Neutralizing Spray helps to neutralise the effects of flaking, restoring the skin's natural pH balance and leaving it balanced.

ROUTINE

- Spray the Neutralizing Spray at a distance from the face so that the liquid gently touches the skin. Leave it on for a few minutes and then rinse off with cold water. If there is still a tingling or burning sensation, repeat the application of the Neutralizing Spray.

FOR PROFESSIONAL USE

ACTIVE INGREDIENTS

Sodium Bicarbonate

REF.
0059

SKIN TYPE

- All skin types.

100ml Glycolic Peel

DESCRIPTION

Glycolic Peel it is formulated with exfoliating ingredients that contribute to skin renewal. It helps improve skin texture and overall appearance.
